DucoVent Premium Trim

(by Prado)

The DucoVent Premium Trim is a vent that can be finished neatly against the ceiling. The vent can be used for both supply and extraction. Thanks to a minimal mounting height and paintable visible parts, the valve virtually merges into the ceiling. The well-thought-out design ensures a diffuse air supply via the Coanda effect, thus guaranteeing optimum comfort.

Aesthetics and quality in one product! A perfect combination with DUCO's high-quality ventilation solutions!
